## FACTS IN NATURE.

**Not Only Do We Get Inspiration From Nature, But Health as Well.**

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, biliousness, or torpid liver, coated tongue with bitter taste in the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more apparent that Nature's most valuable health-giving agents are to be found in forest plants and roots.

Nearly forty years ago, Dr. R.V. Pierce, now consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., discovered that by scientifically extracting and combining certain medicinal principles from native roots, taken from our American forests, he could produce a medicine which was marvelously efficient in curing cases of blood disorder and liver and stomach trouble as well as many other chronic, or lingering ailments. This concentrated extract of Nature's vitality he named "Golden Medical Discovery." It purifies the blood by putting the stomach and liver into healthy condition, thereby helping the digestion and assimilation of food which feeds the blood. Thereby it cures weak stomach, indigestion, torpid liver, or biliousness, and kindred derangements.

If you have coated tongue, with bitter or bad taste in the morning, frequent headaches, feel weak, easily tired, stitches or pain in side, back gives out easily and aches, belching of gas, constipation, or irregular bowels, feel flashes of heat alternating with chilly sensations or kindred symptoms, they point to derangement of your stomach, liver and kidneys, which the "Golden Medical Discovery" will correct more speedily and permanently than any other known agent. Contains no alcohol or habit-forming drugs. All its ingredients printed in plain English on wrapper.

The sole motive for substitution is to permit the dealer to make a little more profit. He gains; you lose. Accept no substitute for "Golden Medical Discovery."

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. One a laxative; two or three are cathartic.

## JAPAN AND THE PHILIPPINES.

Capt. J. H. Aldrich, a nephew of Maj. Gen. Shafter, and former provost marshal general of the middle provinces of Luzon, sees in the preseut Japanese agitation against the exclusion of pupils from San Francisco schools a move in a campaign to acquire possession of the Philippines. Capt. Aldrich declares that ever since Dewey captured Manila the Japanese have been eager to get the island. He says Japauese are now pouring across from Formosa to Luzon and settling in the extreme northern part of the island.

While in charge of a district between Malolos and Tuiguu, Capt. Aldrich captured ten Japanese engineers, disguised as Filipinos. They were on an island in the Balenag river, and their camp contained a fine surveyor's outfit, camera, &c. They had complete maps of the whole country.

Through some mistake they were set at liberty. Several months later Capt. Aldrich was in Hankow, China, where he identified the leader of the engineers as Capt. Yamoto, of the Japanese engineers' services. He boasted to Capt. Aldrich that Japanese maps of Luzon, clear down to Manila, were far better than the American maps, and that a Japanese general in Formosa with these maps could move an army corps perfectly in Luzon. Capt. Aldrich adds that the island of Palola, off the Luzon coast, only 100 miles from Manila, should be fortified strongly, as this is the point which the Japanese would seize for disembarking forces from Formosa.

The story that a Japanese army officer had been placed under arrest at Manila for sketching certain of the fortifications of Manila harbor was denied yesterday by Maj. Gen. Leonard Wood, commander of the division of the Philippines. No such arrest has been made, and no Japanese have made sketches of the fortifications. It is well known that since the American occupation Japanese have been engaged in drawing maps of the Philippines. There is no existing law to prohibit them, although such laws were in force under the Spanish regime.

### Fifty Thousand Men Wanted.

Inability to find laborers is hampering the railroads all over the West in carrying out contemplated improvements. At least 50,000 men are wanted, railroad managers say, with practically none in the market, despite the fact that the railroads are willing to furnish transportation, and, in some cases, to pay as high as $2.50 daily. Here are a few of the systems in the market for help:

Western Pacific, 8,000; Chicago, Milwaukee and St. Paul, 6,000 to 7,000 men for its extension to the coast; Southern Pacific, 6,000 for its extension northward through California to Portland; Chicago and Northwestern, 4,000 to 5,000 men; North Coast Line, large force for road from Walla Walla to Seattle.

In addition to new construction nearly every western road is double-tracking and building cutoffs and similar improvements. The Northern Pacific wanted to double track its Washington line for the fall and winter traffic, but failed through lack of labor, with the result that it has 10,000 loaded cars on its side tracks for lack of main track facilities.

Texas, where more railroad building is being done than anywhere else in the West, is not complaining so bitterly because, railroad men think, laborers prefer the South to the North during the winter. Even in Texas, however, the labor supply is inadequate.

### Locomotive Invades Barroom.

A locomotive drawing an eastbound freight train on the Central Railroad jumped the track at Rome, N. Y., yesterday and plunged into a saloon at the corner of James street and the railroad. Engineer Albert Brown, of Little Falls, was caught in the wreckage and scalded to death. Brakeman Robert B. Vandervoort, of Albany, was crushed to death under the tender. Fireman Hugh I. Groves, of Syracuse, escaped through the cab window unhurt. The wrecked engine was hauling a train of 50 loaded cars. At the station in Rome the engineer received the signal to cross over to another track. At a frog the locomotive jumped the track and ran along the ground a distance of 125 feet, when it swerved, and then plowed straight into the saloon, a two-story frame building. There was no one in the barroon nor in any of the upper rooms affected by the smashup. The car next to the tender was broken in two and the second car was turned on its side. No other cars left the track.

ALEXANDRIA GAZETTE AND VIRGINIA ADVERTISER.

Alexandria Gazette AND VIRGINIA ADVERTISER

MONDAY EVENING. NOV. 5, 1906.

THE GAZETTE again urges every democrat to vote tomorrow. It is hoped that no member of the party will manifest apathy from the fact that Hon. John F. Rixey, candidate for Congress, has practically no opposition. Every one of his friends should show appreciation of his services by going to the polls and endeavoring to swell his vote. Mr. Rixey has been succeeding himself during the past ten years as Representative from the Eighth Congressional district of Virginia. His course and his labors are known to all, while the results of the same are monuments to his efficiency.

Let no suffragan fail to vote.

THE QUIETEST congressional campaign in Virginia which can be recalled has come to a close and tomorrow the election will be held. In this district not a mass meeting has been held and save in the Fifth and Ninth districts but few political speeches have been made by either democrats or republicans. It is quite sure that the democrats will re-elect nine of the ten congressmen from Virginia and there is strong hope that they may regain the Ninth district and relegate Col. Slemp to the oblivion from which he should never have been dragged.

In this, the Eighth district, Mr. Rixey will have a walk-over if his friends will only take the time to go to the polls. Unfortunately he has been prevented by ill health from making a canvass, but his friends owe it to him to rally to his support and show that they appreciate his worth and the efficient services he has rendered them ever since he took his seat in Congress.

From throughout the country encouraging news comes of gains that the democrats will make in the next House. Chairman Griggs, of the congressional campaign committee, claims a majority. It is to be hoped that his claim may be made good.

The hottest fight in any of the States is in New York. The New York Hearld's political forecast gives the State to Hughes by 143,000. As to the outcome in New York city, the paper declines to predict. The majority, one way or the other, it says will be so small as to be immaterial.

JOHN SHARP WILLIAMS on the stump in Maryland recently is reported as having expressed the belief "that the country is on the verge of a breaking up of old party alignments and that in five years there will be two great parties, one paternalistic, composed of men who, having lost all confidence in the capacity of the people to do anything for themselves, would intrust everything to the government. The other party will be composed of men who still believe in the initiative of the individual and in the principles enunciated by Thomas Jefferson. Indeed, to many, things seem to be drifting that way.

LONDON papers say that the admiralty is already preparing to construct battleships larger and more powerful than the Dreadnought, armed with 13½ inch guns, which will be over fifty feet long and weighing more than eighty-five tons. It is announced that Russia has ordered two 20,000-ton battleships of the Dreadnought type, and plans are on foot by the U. S. naval board to build two battle ships larger and mightier than the Dreadnought. With such preparation for war why peace conferences and national arbitration boards?

BEGINNING this week, 500 teachers from the various public schools in England will arrive in companies of about forty a week for the purpose of studying American educational methods. This visit will extend over the greater part of the winter. The teachers represent every grade, from the elementary to the university, and are expected to make formal reports to their respective boards. It is very doubtful if they gain any valuable points here, for the methods of education in this country seem to have gone awry.

IN A public assembly recently at which Booker T. Washington spoke, the Governor of Alabama said that the colored man who cannot read and write, but can and will work, is a better member of society than one who has unlearned work in the school. Quite a just observation, but, as adds the Philadelphia Record, there is no need of limiting its application to the colored race.

IT'S TOO late to prognosticate now—the election takes place tomorrow.

Prince Henry XXXII of the German house of Reuss, came to Washington yesterday afternoon, and was the guest of honor at a luncheon given by Ambassador Speck von Sternburg at the German Embassy. The royal visitor, after the luncheon, was taken for an automobile trip about the city, and at 6 o'clock returned on a Pennsylvania train to "Belair," the country home of James T. Woodward, where he is visiting.

## From Washington.

Washington, Nov. 5.

President Roosevelt will receive election returns tomorrow evening in his office at the White House. In addition to the telegrams of advice that he will get from personal friends throughout the United States who will wire him just as soon as they know how the fight is going in their respective localities, the president will receive the complete service of the Scripps-McRae and Publishers Press and Associated Press, and the bulletins of the Western Union and Postal Telegraph companies. Secretary Loeb will remain in his office until decisive returns from the principal states are all in. The members of the White House telegraph force will all be on duty until midnight. If the republican party wins a general victory at the polls, it is quite likely that the president will make public these interviews or announcement expressing his gratification over the result.

Plans and specifications for the government buildings at the Jamestown Exposition have been completed, and bids for their construction before the middle of March are being asked for. There will be five structures, not including the life saving station. They will be built on two sides of Raleigh square. The quarters for the soldiers and sailors and the officers of the army and navy will be at the end of one of the two pergolas which connects themain buildings, while the buildingsf or the fisheries and Smithsonian exhibition will be in the wings. According to an official dispatch received at the War Department today from Maj. Gen. Greely, at Omaha, the Ute Indians who were rounded up in Wyoming by U. S. Cavalry under command of Colonel Rodgers, are to be held as prisoners of war at Fort Meade until their final disposition shall have been ordered by the War Department. In the meantime the chiefs of the tribe will come to Washington to present their case to the Indian Bureau and Secretary of the Interior Hitchcock.

Is the government violating its own railroad rate law? This is one of the problems which the Interstate Commerce Commission will soon be called upon to solve. The federal government, through the War Department, has yearly contracts with many of the railroads of the country for the hauling of troops, and it is said that in numerous instances the railroads are making lower rates for this service than they do to theatrical companies, circuses and other enterprises. The question as to whether or not this constitutes a discrimination, under the law passed in the last session of Congress, has already been presented to the commission and has been the subject of several informal conferences among its members. An early ruling is expected. There is nothing in the new railroad law prohibiting the railroad making special contracts with the War Department as has been the practice in the past, but it is a debatable question as to whether the railroads have a right, for instance, to transport fifty soldiers cheaper than they would fifty members of a theatrical company under the party rate privilege.

### Tomorrow's Election.

New York, Nov. 5.—Tammany Hall was the busiest political spot in the country today. This is "dough day" at the said hall, and the district leaders came in carriages bringing with them capacious canvas bags. Seventy thousand dollars is said to be the size of the pile which is needed to bring out the Tammany vote. The New York gubernatorial campaign shuts up shop tonight and tomorrow the voter will make his choice—Hughes or Hearst?

The betting today is four to one on Hughes. Chairman of the republican State committee Woodruff, wearing one of his gorgeous vests and a confident air, predicted today that Hughes would have over 100,000 plurality in the State.

Max Ihmsen, chairman of the independence league, says Hearst will win by 200,000. Ihmsen says Hearst will get 150,000 in the city and 50,000 up State. Democratic State Chairman Conners wires from Buffalo that Hearst will have 160,000. County Chairman Brenne, of Kings county, says Hughes will capture the county by 10,000 to 20,000 votes. There is an evidence of rainbow painting in the city today.

Charles F. Murphy, who was busy apportioning the dough at Tammany Hall, took time enough to say that victory was in the air. "How high up?" asked a reporter.

Murphy scowled and turned away.

Hughes and Hearst will close their campaign tonight with speeches and red fire. There will be more red fire than speeches, for both are throat weary from stumping. Hughes has made 152 speeches in this campaign.

Ten thousand warrants, asked for by Superintendent of Elections Morgan, will be issued today. These warrants have been issued for persons who have illegally registered. They will be served if the persons try to vote on illegal registration of names.

The Evening Journal in a special extra this morning claims the State in big headlines by 200,000 for Hearst. It adds: The republican managers are in despair. Privately they estimate that Greater New York will give 150,000 plurality for Hearst.

A peculiar feature of this mixed campaign is the attitude of Boss Odell. He is doing absolutely nothing for the election of Hughes and it is said is secretly hoping for the election of Hearst.

### Killed by Falling Girder.

New York, Nov. 5.—One man was killed and another fatally injured in an accident today at new buildings being constructed for the New York Central Railroad at Forty-fifth street and Lexington avenue. The dead man is Chas. Peterson, 32 years old, of Jersey City. The man fatally injured is Otto Pearson, 35 years old, also of Jersey City. Peterson and Pearson were at work on lower floors of the building when a steel girder, being hoisted to a position, struck and knocked down another girder. The falling girder struck and almost instantly killed Peterson. Pearson was also struck and received a fractured skull. He was removed to the Flower Hospital where it was said his chances for recovery were very slight.

### European Immigration.

Rome, Nov. 5.—An international congress is needed to deal with the regulation of emigration from European countries to the United States, according to Terence V. Powderly, special immigration inspector, who is here investigating the causes of Italian emigration. In an interview today with the correspondent of the Publishers Press, Mr. Powderly said: "I am convinced that the Italian government does not participate in the movement of encouraging Italians to go to America. The movement is caused by the steamship companies in seeking transportation business. The time has come when it is necessary to convoke an international congress to deal with the subject.

### Explosion of Dynamite.

Dubois, Pa., Nov. 5.—While a northbound freight train on the Buffalo, Rochester & Pittsburg Railroad, was passing Fairs Siding, a short distance this side of Ridgway, Sunday, a car of dynamite that was for use on some construction work at this point exploded with terriffic force. Twenty-eight cars of the freight train were destroyed and the entire side of the hill was blown away. The tracks were torn up for a distance of several hundred yards and the damage is estimated at $60,000. Shock was distinctly felt in Dubois, a distance of thirty miles and at Ridgway plate glass windos were broken. A heavy car wheel was thrown up the side of the hill at a distance of 1,000 feet.

### Mutineers Subdued.

Portsmouth, Eng., Nov. 5.—Resenting the command of an officer to kneel during an address 300 men at the naval barracks mutinied yesterday and made things exceedingly lively before they were quelled. An attack was made on the canteen by the mutineers and the place was wrecked. The whole garrison was mobilized and charged the mutineers with fixed bayonets. The mutineers, most of whom were stokers, fought fiercely and several were severely wounded before they were subdued.

### Searching for Highwaymen.

Portland, Me., Nov. 5.—Five hundred men are today scouring the woods in this vicinity in search of four alleged highwaymen, who, in a street fight at midnight, inflicted mortal injuries on two men and seriously cut another. ### The Thaw Trial.

New York, Nov. 5.—There is no foundation in fact for the rumor started today that Harry K. Thaw would be placed on trial this week for the murder of Stanford White. Acting District Attorney Smyth stated that Thaw probably will not be tried before December. It now seems assured that Thaw's defense will be emotional insanity.

### Legs Crushed.

Paris, Nov. 5.—Trowbridge of Philadelphia, who is described as a leading American millionaire, was badly injured today in an automobile accident, according to a despatch recieved from Biarritz. The smash up occurred between Biarritz and Mont-de-Marzan. Both of Mr. Trowbridge's legs were crushed.

### The Election in Virginia.

Special disyatch to the Alexandria Gazette.]

Richmond, Va., Nov. 5.—Information comes from the Ninth district that an enormous corruption fund is being spent lavishly to reelect Slemp. The democrats are fighting hard, but against odds. Some anxiety is felt concerning Sanders in the fifth district, but he will probably pull through by a safe lead. All voters from the fifth and ninth districts having employment here have left and will work at the election tomorrow. Much money is being put on the New York election in local sporting circles with heavy odds on Hughes. Lily white republicans in the third district are panicky fearing that Johnson, colored, will get more votes than Hanson, the white candidate for Congress. Both sides are working hard today.

### Died at His Post of Duty.

Atlantic City, N. J. Nov. 5.—Motorman Walter Scott in charge of the electric train which was wrecked on the drawbridge over the Thoroughfare, has been proved a hero who gave his life in the effort to save the passengers entrusted to his care by the coroner's inquest now investigating the cause of the accident. Scott, it was shown, today, had an opportunity to jump from the car before it went into the stream, but he stuck to his post, trying to the last to stop the train.

### Suicide by Carbolic Acid.

In the presence of a gathering in the home of Earnest Farrell, at Marion, O., yesterday, Miss Hilda Allen, aged nineteen, announced she was going to commit suicide. She then locked herself in a room and cried: "I am going to do it now." "Go ahead we are waiting," returned somebody from the porch, thinking Miss Allen was joking. Opening the door, the girl swallowed a dram and a half of carbolic acid in view of men and women on the porch, and fell to the floor, writhing in agony. She murmured: "I did it for my sake and for his sake. For God's sake, save me." She died an hour later. Walter Krouse, aged twenty, Miss Allen's sweetheart, says the only reason he knows why she should have taken her life is that he bit her on the arm, and it made her angry. The suicide was an orphan and exceptionally pretty. Her stepfather, George Porter, mysteriously disappeared shortly after her mother's death, several years ago. Mrs. Farrel, with whom Miss Allen lived, states that the girl committed suicide rather than marry Krouse.

After swallowing three ounces of carbolic acid in an adjoining room, Miss Grace Kern, a pretty girl seventeen years old, yesterday evening walked into the presence of her sweetheart, A. Boot, who was calling on her at her home, in Louisville, Ky., and fell dying at his feet. Almost stunned by her cry of "Save me," Boot retained presence of mind sufficent to hasten for a neighboring physician, and returned in a few minutes with Dr. J. C. Mitchell. The effort to save Miss Kern, however, was in vain. The only explanation of the girl's deed is that she was sensitive about a rebuke administered Saturday in the presence of her sweetheart. The mother, Mrs. Lawrence Mertz, is prostrated by the affair, and only through the constant efforts of her son and another daughter has been prevented from doing violence to herself.

### Letter to M. B. Harlow.

Alexandria, Virginia.

Dear Sir: Here's honesty for you! North Dakota has a pure paint law. Prof Ladd, the state chemist analyzes a certain paint labled "contains only lead and zinc and is strictly pure," and finds it no lead at all, a resinous oil, and benzine. It is, however, full-measure and contains no water.

That's like the man on trial for killing his grandmother; proved that he didn't set fire to the house.

No lead, but zinc and barytes, resinous oil, and benzine—"strictly pure lead and zinc paint!"

Pure paint is lead, zinc-and-oil; but that isn't all; there is such a thing as proportion and make. The strongest paint is Devoe.

North Dakota is doing a handsome thing in holding these confidence-people up to scorn. She gives their names as well as their works.

### MR. RIXEY.

To the Editor of the Alexandria Gazette.

Dear Sir.—Your editorial of Saturday urging the voters to support the Hon. Jno. F. Rixey, should have especial weight with the one hundred voters in our city employed at the naval gun factory in the Washington navy yard. On account of the prominent position occupied by Mr. Rixey in the House of Representatives he has for years been a member of one of its most important committee; viz, the committee on naval affairs. During this time he has been able to do a great deal to advance legislation desired by his own constituents as well as measures of national importance. Among the former was the bill to pay time and half time for all time in excess of eight hours per day performed by mechanics of the Washington navy yard during the Spanish American war. The passage of this bill was the cause of thousands of dollars being paid to mechanics of our city and despite the fact that a number of men in this campaign are seeking credit among this working men for the passage of this act the fact remains that the favorable report on this bill was written and the bill called up and passed through the House of Representatives by the Hon. Jno. F. Rixey. The bill granting fifteen days annual leave to mechanics employed in the navy yards, arsenals and stations found in Mr. Rixey a most ardent supporter. The effect of this law gave to the mechanics of our city in the Washington yard leave of absence that could be used by them for a rest during the summer or utilized in case of sickness. At another time some years ago when Capt. E. C. H. Leutze superintendent of the Washington navy yard, in order to avoid a large discharge in that yard requested permission of Secretary Long to furlough the men for periods of four days, Mr. Rixey went to the Navy Department and made a personal appeal that the department would comply with the request. It was granted and a number of our citizens received a furlough instead of a discharge. At the last session Mr. Rixey made a strong fight to secure an appropriation to build a new iron, brass and steel foundry in the Washington yard. This building had been urged by the officials of the yard and the Navy Department and was badly needed to take the place of the old foundry now in the yard and as was shown by Mr. Rixey in a speech in the House thousands of dollars could be saved yearly and the work facilitated by providing this building. On account of the opposition of the steel interests of Pennsylvania this bill failed, but Mr. Rixey intends to renew the fight this session. As to the measures of national importance passed upon by the naval committee. No member deserves greater credit than Mr. Rixey does that the government is able to buy the armor plate for its battleships at a reasonable price. He has persistently fought the steel trust that furnished the navy with armor and has been able to assist in reducing the price so that a vast sum of money has been saved to the country. He has also assisted in securing legislation placing our navy yards in position to build their own ships in case of necessity and if he could have been successful in his efforts to have the "Connecticut" built at Norfolk, where the wages are nearer equal to the wages paid at Newport News, this vessel would have been constructed possibly cheaper than her sister ship, the Louisiana."

Mr. Rixey has always shown an interest in the mechaics of the Washington yard and devoted all his energies in their behalf and has always taken pride in stating that he was proud of the friendship of the working men of his district. Unlike a number of legislators this is no fulsome praise on his part, but has been proven by years of sterling devotion. Although on account of ill health he has not been able to see his constituents personally, I trust the employees of the navy yard will remember his acts and repay him on Tuesday by a vote to continue his good work.

JEWELRY.

THE DINING-ROOM

is used oftener than almost any other room in the house. That is why it should be made the most comfortable spot, and be pleasingly arranged.

Without cut glass and silverware a dining room makes little impression and is hardly home like. A few pieces tastily arranged will make a better effect than many of them placed indiscriminately.

A silver fern dish puts a finish to the table and livens up the room. A silver set is needed to decorate the sideboard. A few cut glass pieces so arranged as to contrast with the tea set will make the sideboard as it should be. The cut glass required are decanters, berry bowls and fruit dishes. The only other silver piece that should be in evidence is the candelabra.

If you want your dining room to be just so have the bread trays and other trays of silver. Even the crumb tray and scraper should be silver-plated.

The steel knives should have silver-plated handles to match the silver-plated spoons, knives and forks.

If you are not satisfied unless your dining-room is properly fitted, you are undoubtedly particular about your own person. It is just as well that you are. A little attention to your ownself begets attention from others. Wear a diamond ring or two, a locket, watch and chain. As the chain is more in evidence than the watch or the locket, you may as well wear the best there is—the guaranteed Z-K Gold Chain.

Let us fit out the dining-room as well as yourself. Prices very reasonable.

## Local Matters.

### Sun and Tide Table.

Sun rises tomorrow at 6:31 a. m. and sets at 4:55 p. m. High water at 10:44 a. m. and 10:54 p. m.

### Weather Probabilities.

For this section fair, warmer tonight. Tuesday partly cloudy; light easterly winds.

### A Distressing Accident.

Mr. Joseph A. Mingen was the victim of a distressing accident on King street, a short distance west of Pitt, about ten minutes past nine o'clock last Saturday night. The unfortunate man attempted to board a rapidly moving northbound electric train and had ran from the corner of King and Pitt streets in order to catch the car. He either fell or missed his footing and the wheels of the rear car passed over one of his legs. A number of people saw Mr. Mingen when he endeavored to board the train and were eyewitnesses to the terrible accident. The unfortunate man was picked up and Dr. Walter Warfield, who was nearby, rendered what assistance he could. Afterward Mr. Mingen was conveyed to the Alexandria Hospital, where the leg was amputated above the knee by Dr. W. M Smith. The accident attracted a large crowd. The train which ran over Mr. Mingen was in charge of Motorman Croson and Conductor Thomas. Mr. Mingen is about twenty years of age and was employed at the Old Dominion Glass Works He resides at 721 Queen street.

The boarding of moving electric trains on King street by boys keeps many people whose business takes them to that thoroughfare in a continual state of apprehension. Last night, while the accident to Mr. Mingen was fresh in the minds of all, boys were chasing trains and others were taking desperate risks in boarding them. It is to be regretted that the practice cannot be broken up. Mr. Mingen's condition was favorable today.

### Returned to Work.

When the whistle at the Southern Railway depot sounded early this morning the machinists formerly employed therein were at the gates ready to resume work. The special policemen, however, by some misunderstanding refused to allow the men to enter and they returned to their homes. Later the machinists were notified that the way was clear and most of the men again returned to the shops. Some, however, failed to report, but they will, it is believed, be on hand tomorrow.

It is stated that a number of the machinists formerly employed by the Southern Railway Company in this city will be transferred to Monroe, Va., where the company expects to do a considerable part of the work which was formerly done in this city. Some of the machinery has already been removed from the shops here to Monroe.

People who strolled yesterday in the vicinity of the Southern depot noticed that the yards adjoining this city had been almost denuded of cars. A few months ago more than a dozen tracks were filled with cars, and trains stretched literally for miles. They are being massed in the Potomac yards north of Alexandria where it is intended to make up all trains in future.

### River Notes.

The long pier at Shepherd's landing, opposite this city, which is used by the Baltimore and Ohio railroad as a coal chute, is receiving extensive repairs and will be put in good order so that heavily laden trains of coal cars can be run out upon it and their contents transferred to barges.

A large vessel with a cargo of bone aboard from the Argentine republic, South America, sailed from Rio de la Plata about two months ago for the Bryan Fertilizer Company of Alexandria. The bones are to be used in the manufacture of fertilizer, and the vessel is expected to arrive at Alexandria about the middle or latter part of this month. The Italian bark Antonio, the last vessel bringing bones from South America to Alexandria, was wrecked off Cape Henry the early part of the past spring.

### Charges Against Policemen.

At the trial of Police Captain Mathews and Lieut. Mulhall, which closed yesterday in Washington, a number of witnesses were examined to show the the condition of Engineer Murphy and to establish for the defendants the fact that the police on the night of the wreck were acting under orders of the chief of the fire department, as required by law.

When the evidence was closed, Mr Burke said he was not prepared to argue the case, as he did not expect the arguments would be reached until today. He consented, however, to go on, and immediately began his speech. He was followed by Mr. Easby Smith. Mr. Bendheim, for the complainants, closed the argument. The decision is not expected for three weeks.

### Alexandria Water Company.

The annual meeting of stockholders of the Alexandria Water Company was held today. The reports of the officers showed the affairs of the company to be in good condition. The following directors were re elected: Walter Roberts, E. L. Daingerfield, G. S. French, Hubert Snowden, Worth Hulfish, W. F. Lambert and M. Ahern.

After the stockholders' meeting the directors met and elected the following officers: Walter Roberts, president; Geo. Uhler, secretary and treasurer; James Eveleth collector, and Charles Power superintendent. A semi-annual dividend of $2.50 per share was declared.

### W. C. T. U.

The ladies of the Allison W. C. T. U. wish to meet as many ladies of the city who are interested in the Children's Home as can possibly make it convenient to meet them tomorrow afternoon at the home at 1 o'clock. They have tried to make it suit everybody and have decided to spend from 1 to 5 there sewing, but if anyone wishes to take a piece home and make it, it will be all right. This is a worthy object and it is hoped the ladies will aid in it. The matron is very anxious to get the children's winter clothing ready for the winter.

### Educational Meeting.

Superintendent of Public Schools Kemper announces that an educational meeting will be held at the Opera House in this city on the 21st inst. A number of prominent educators are expected to be present and address the meeting.

Washington-Southern Ry. Co. vs. City Council of Alexandria; in chancery and injunction in regard to Henry street track; arguments on demurrer to be heard December 11.

### Earl Burgess Company Tonight.

The Earl Burgess Company will open their week's engagement this evening at the Opera House, presenting that beautiful Russian play entitled "Darkest Russia." The drama deals with the rich and poorer classes of Russia and is without a doubt one of the best Russian plays ever seen at popular prices. During the action of the play and between the acts high-class vaudeville will be introduced, which is considered by press and public the best ever carried by a popular priced attraction.

### November Sunday.

The weather yesterday was ideal, and the streets were thronged with people throughout the day. Many strangers came to the city and the environs were visited by large numbers especially in the afternoon. Shooter's Hill road, West End, Braddock road and the Washington and Alexandria pike were thronged with people until late in the evening.

The churches were all well attended the services being conducted according to Saturday's announcement.

### The Election Tomorrow.

The election tomorrow for congressman from this district will be a quiet affair in this city and vicinity. The candidates are J. F. Rixey, of Culpeper, and J. B. Henderson, jr., of Alexandria county. The polls will be opened at the usual places at 6:31 tomorrow morning and will remain open until 4:55 p. m. The day will be a legal holiday, but only the banks and a few of the public offices will be closed.

### Houses to be Removed.

The Washington-Southern Railway has directed the occupants of the houses at the east approach to the new iron bridge extending from the Washington pike to the Poor House to vacate the same in order that the buildings can be razed and a steam shovel put to work. Four frame houses on the north will be demolished and one brick and three frame structures on the south will meet a similar fate.

### Accidents.

Mrs. Carrie Nowland, wife of Mr. George A. Nowland, while stepping from an electric car at Prince and Fairfax streets last night fell and was painfully injured. She was attended by Dr. Gorman.

Thomas Blair, colored, fell from a tree in St. Mary's cemetery a few days ago and sustained painful bruises.

### Ran Off Turn Table.

An engine which had been placed on the Southern Railway turntable on south Henry street, about 9 o'clock Saturday night suddenly started in an easterly direction down Wolfe street, carrying away a fence in its progress. The engine stopped when it reached the centre of Henry street.

There was a large congregation at St. Mary's Church last night, the occasion being the annual vesper services, under the auspices of Fitzgerald Council, No. 459, Knights of Columbus. The programme, which had been previously published in the Gazette, was carried out in full. D. J. Callahan, of Washington, State deputy of the order, led the procession of the Knights of Columbus from the Young Men's Sodality Lyceum Hall, on Duke street, to the church. Rev. Father Albert Negahauquet, a Pottawatomie Indian from Oklahoma, who is a student at the Apostolic Mission House, Brookland, was the celebrant, and the sermon was delivered by Very Rev. Alexander P. Doyle, C. S. P., superior of the Apostolic Mission House. His subject was "Christopher Columbus." The Gregorian vesper service was chanted by a double sextet composed of Seminarians from the Holy Cross College. The programme was as follows: "Deus in Adjutorium," John A. Schehl; "Dixit Dominus," "Nisi Dominus," "Laetatus Sum," "Lauda Jerusalem," Geogorian chant; "Ave Maria Stella," C. Eu; "Salva Regina," Gregorian; "Ave Maria," Verdessen; "O Salutaris," Gerum; "Tantum Ergo," Adalbert Lenk.

**THE REPUBLICAN NOMINEE.**

Mr. John R. Henderson, jr., of Alexandria county, has accepted our nomination for Congress. He stands for protection and all the legislation in the interest of the plain people passed by Congress during its last session, favored and pushed by President Roosevelt. But while he stands for protection he is in favor of a revision of the tariff by the friends of protection, in the interest of the consumer, to uncover any monopolies that may have taken shelter under the wings of our protective tariff to rob the consumer.

May I not bespeak for him in advance the loyal and, if possible, enthusiastic support of all republicans and other of our citizens who favor protection and the policy of Mr. Roosevelt.

We need in this city and State two strong virile parties to contest elections. It is healthy for a city and State for two such parties to exist more evenly divided than they are at present in this State to make contests for the offices and for the power to legislate for the people. Soon, if present conditions continue, with practically one party in power in the State, we may witness a reform party spring up to take control from the now dominant party such as we have witnessed during the last year in Philadelphia, Pa., and I want to say right here that if I lived in that city I should consider it a patriotic duty as a good citizen to vote against my own party, and in favor of putting my city in the hands of clean men of the opposition if necessary. We may, if present conditions continue, have such contests here in Virginia, but I hope not. I hope we love our State too much to wish to see misfortune overtake her to gain any partizan advantage. We are doing good service to our city and State by trying to make our party strong and respected—even by our friends, the enemy. Respectfully,

W. P. GRAVES,
Chairman Republican City Committee.

# Nervous Women

**Their Sufferings Are Usually Due to Female Disorders Perhaps Unsuspected**

**A MEDICINE THAT CURES**

Can we dispute the well-known fact that American women *are* nervous?

How often do we hear the expression, "I am so nervous, it seems as if I should fly;" or, "Don't speak to me." Little things annoy you and make you irritable; you can't sleep, you are unable to quietly and calmly perform your daily tasks or care for your children.

The relation of the nerves and generative organs in woman is so close that nine-tenths of the nervous prostration, nervous debility, the blues, sleeplessness and nervous irritability arise from some derangement of the organism which makes her a woman. Fits of depression or restlessness and irritability; spirits easily affected, so that one minute she laughs, the next minute weeps; pain in the abdominal region and between the shoulders; loss of voice; nervous dyspepsia; a tendency to cry at the least provocation—all these point to nervous prostration.

Nothing will relieve this distressing condition and prevent months of prostration and suffering so surely as Lydia E. Pinkham's Vegetable Compound.

Mrs. M. E. Shotwell, of 103 Flatbush Ayenue, Brooklyn, N. Y., writes:

"I cannot express the wonderful relief I have experienced by taking Lydia E. Pinkham's Vegetable Compound. I suffered for a long time with nervous prostration, backache, headache, loss of appetite. I could not sleep and would walk the floor almost every night.

"I had three doctors and got no better, and life was a burden. I was advised to try Lydia E. Pinkham's Vegetable Compound, and it has worked wonders for me.

"I am a well woman, my nervousness is all gone and my friends say I look ten years younger."

Will not the volumes of letters from women made strong by Lydia E. Pinkham's Vegetable Compound convince all women of its virtues? Surely you cannot wish to remain sick, weak and discouraged, exhausted each day, when you can be as easily cured as other women.

**President Kills a Wild Turkey.**

President and Mrs. Roosevelt arrived in Washington last night at 9:10 o'clock from Pine Knot, Va., where they went Wednesday last, accompanied by Surgeon General Rixey and Private Secretary Latta.

The party came in the special car Signet over the Southern Railway. The President and Mrs. Roosevelt were driven direct to the White House.

The President spent his entire time while at Pine Knot hunting wild turkeys. He had never shot one before, although he often hunted them. His hunting companions were Dr. Rixey and J. C. Bishop, a local hunter. Thursday, Friday and Saturday mornings the start was made at 4 o'clock and the hunt kept up all day.

It was not until late Saturday afternoon, however, that the President accomplished his desire. He shot a wild turkey, the only one shot during the three days of hunting.

The President returned to Washington feeling much invigorated from his outing and decidely pleased that he had added one more laurel to his hunting record.

Mrs. Roosevelt took several horseback rides, and, as the weather throughout was ideal, the outing was pronounced a decided success.

Active preparations for the President's Panama trip are in progress at the White House. The President will leave at midnight tonight for Oyster Bay

**Murder and Then Suicide.**

When confronted with conclusive evidence of his guilt in murdering Mrs. William Garrett, at Abingdon, Saturday night, John W. Hawkins, aged 30 years, in the presence of his wife and three small children, committed suicide by blowing his head off with the same gun with which he had a few hours before committed one of the most shocking murders in that section.

Illicit love had existed between Hawkins and Mrs. Garrett for several years, notwithstanding the fact that the former had a respected young wife and three children. The murder was the outcome of a quarrel, which was to conclude the liaison.

Mrs. Garrett started from the home of J. H. Gildersleeve, a promient citizen of Abingdon, late Saturday night, and as she was crossing a dark alley leading to her home, a double-barrel shotgun was emptied in her direction from the darkness and Mr. Gildersleeve a few hours later stumbled over her lifeless body.

The woman's head had been completely blown from her shoulders and two empty shells were found near her.

Kennedy's Laxative, (containing) Honey and Tar moves the bowels. Contains no opiates. Conforms to Pure Food and Drug Law. Sold by W. F. Creighton & Co., 401 King street.

**More Rioting.**

Missles filled the air and shots aroused the West Side, New York, when striking chauffers and their sympathizers attacked an Eighth avenue car at 30th, street Saturday night to get at some strike breakers and special detectives who were among its passengers. One man was shot through the neck and taken to Roosevelt Hospital in a serious condition. The riot took place while a political meeting was in progress on the corner, and the firing of revolvers in the air and the clashes between strike breakers and strikers caused great excitement. The fighting lasted for nearly half an hour, and it was not until the arrival of the reserves from the west 37th street, west 30th street and west 20th street stations that the mob was dispersed.

**Fortunate Missourians.**

"When I was a druggist, at Livonia, Mo.," writes T. J. Dwyer, now of Graysville, Mo., "three of my customers were permanently cured of consumption by Dr. King's New Discovery, and are well and strong today. One was trying to sell his property and move to Arizona, but after using New Discovery a short time he found it unnecessary to do so. I regard Dr. King's New Discovery as the most wonderful medicine in existence." Surest Cough and Cold cure and Throat and Lung healer. Guaranteed by E. S. Leadbeater & Sons, Druggists, 50c and $1.
